- 640 and 680 EE Hill property use violations- Lake County is pursuing legal action against the owners of both properties, specifically for installation of structures without permit and storage of camping units in excess of 15/30 day limits. One owner settled and cured the violations. The other has a court date of June 15 to challenge the county code. Dave and Jeff have been asked to testify. ETLOA will take no action until the case has been ruled on.

- Request for documents – Owner Dominguez has made multiple requests for historical ETLOA documents, specifically the original 1998 Bylaws and Declarations, and minutes from meetings between 1998 and 2013. ETLOA is not required to keep non-current governing documents and therefore did not provide them (they are available in Lake County records). ETLOA does not have meeting minutes from years prior to the 2015 reorganization and was unable to provide those.
- Cache Creek HOA – Owner Dominguez requested information on the Cache Creek HOA which he alleged overlapped ETLOA boundaries. The ETLOA Board had no previous knowledge of the Cache Creek HOA.

Action: Jeff check with Colorado Secretary of State on status of Cache Creek HOA.

Meeting adjourned at 11:54am.
